Motor Vehicle Operation Permission

All students who wish to operate a motor vehicle and park on school property must obtain permission from the principal and must register the vehicle with school authorities. The following regulations apply:

1. All cars parked must display a valid Galway student parking tag. This will hang from the mirror.
2. The driver and all passengers are to leave the vehicle and the parking lot immediately after parking. Students are not allowed to leave school grounds after they have parked their car.
3. Students will only park in the designated and assigned parking spot.
4. The speed limit on all school properties is 10 miles per hour.
5. No motor vehicle is to pass a school bus.
6. All traffic laws apply within the school parking lot.
7. All drivers are required to provide a parking permit form, a copy of a valid driver's license and insurance ID card.
8. Permits will be revoked for students with repeated tardiness, or any violation within the student handbook.

I have read and understand the rules listed above. I understand that failure to abide will result in the loss of the privilege to drive or park on school property.
