

GALWAY CENTRAL SCHOOL DISTRICT BOARD OF EDUCATION MEETING MINUTES

Thursday, October 12, 2023

MEETING CALLED TO ORDER

The Meeting was called to order by Board President Jay Anderson at 6:30 PM in the High School Library.

PLEDGE OF ALLEGIANCE – was recited.

ADDITIONS/REVISIONS TO THE AGENDA – were noted

PUBLIC COMMENT ON AGENDA ITEMS – none

BOARD MEMBERS PRESENT – Jay Anderson, Stacey Caruso-Sharpe, Michelle Bombard, Krystal Pashley, Jeremy Sowle and David Page.

BOARD MEMBERS ABSENT - Karen English

PRESENTATIONS

- The District's independent external auditor, Mr. Michael Rossi from West & Company LLP, recently concluded the audit of the fiscal affairs of the Galway Central School District for the period July 1, 2022 - June 30, 2023 and reported his findings to the Board of Education and those present. The firm audited the records of the Business Office and Extra Classroom Activity Accounts, tested financial data, and analyzed the financial condition of the district. Mr. Rossi further reported that the District is in a good financial state.
- Lucinda Ormiston and Barb Vokatis spoke to the Board about their book that was published over the summer called "Teachers and Therapy Dogs". Dr. Donovan presented the Galway Gold Coin to Lucinda and Barb for their hard work and accomplishments.
- Lee Levine, FFA Advisor, gave an overview of the agricultural program and also what fundraising activities will be taking place during the school year.
- Dr. Donovan and Michael Miller gave an overview of "Protect the Nest" which will be occurring on October 19, 2023 at the school.

SUPERINTENDENT’S REPORT

- School Board recognition week is October 16-20, 2023. The Board was recognized for all their hard work and dedication to the District and were presented with a beautiful flower arrangement presented by the floral students in the FFA program and certificates of appreciation.

May 10	2024	Budget Notice and newsletter mailed to eligible voters after the budget hearing, but no later than six days prior to the vote
May 21	2024	ANNUAL MEETING: Date of voting by eligible residents on <u>2024-25 Budget;</u> <u>Propositions: Members of the Board of Education</u>
May 21	2024	<u>Board of Education Meeting</u> – Board accepts election results after polls close and results are announced
June 10	2024	Last date for candidates for election to Board of Education to file final campaign expenditure report with District Clerk and Commissioner of Education
PHASE VI June 18	2024	Statewide Budget Revote Day
June 22	2024	Adopted 2024-25 Budget Finalized and Implemented

All voted aye to approve the Motion. Motion passed. Yes No

2. Motion _____ Second _____

Accept the District’s Independent Auditor’s Report of the 2022-23 school year financial records indicating compliance with State of New York procedures and regulations. It will be filed with the Office of the Comptroller of NYS and the State Education Department, as required by law. The general public will be informed and a copy will be available for a period of 30 days in the Office of the District Clerk daily during working hours.

A motion was made by Stacey Caruso- Sharpe and seconded by Michelle Bombard to table this motion until the next meeting of November 9, 2023 wherein the Board will vote on it.

3. Motion Michelle Bombard, Second Krystal Pashley Approve a Resolution Declaring Fixed Assets as Surplus/Obsolete.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

4. Motion Michelle Bombard, Second Jeremy Sowle

Approve the Shared Services Agreement between Galway Central School District and the Saratoga Springs City School District effective 9/14/23 through 6/26/24 and authorize the Board President to sign said Agreement.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

5. 1st Reading of Board Policies and Regulations

4531 Field Trips and Excursions

5152 Admission of Non-Resident Students

6. Motion Michelle Bombard, Second Stacey Caruso-Sharpe

To Approve a Resolution to Authorize Capital Project for Building Addition and Reconstruction at the K-12 Facility and the Bus Garage and Declare SEQRA Designation:

WHEREAS, the Board of Education of the Galway Central School District (“Board”) is considering to undertake a project consisting of various improvements to the District’s campus and property located on Sacandaga Road (NYS Route 147) in the Town of Galway, County of Saratoga, including (i) athletic field and related improvements, including reconstruction of the existing track, replacement of the existing grass soccer field with artificial turf, the installation of field lighting at the soccer field, replacement of the existing soccer and softball field scoreboards, and paving of the existing track parking lot; (ii) four building additions, including a gym/fitness center addition, a high school office/vestibule addition, a technology addition, and a greenhouse addition; (iii) various site renovations and improvements, including the installation of two ramps/ADA access ways, the reconfiguration of a parking lot island to improve bus circulation, and the replacement/relocation of two underground fuel tanks; (iv) site improvements at the bus garage, including pavement replacement and the replacement of underground building fuel tanks with above ground tanks, (v) the construction of two new parking lots on property recently acquired by the District and located across Sacandaga Road, including associated access driveways, stormwater management improvements, and pedestrian access across Sacandaga Road; and (vi) various interior renovations and improvements (“the Project”); and

WHEREAS, the State Environmental Quality Review Act (“SEQRA”) and the regulations thereunder require the Board to undertake a review of the potential environmental impacts, if any, associated with the project before approving same; and

WHEREAS, this project is a Type I action within the meaning of SEQRA; and

WHEREAS, Part 1 of the Full Environmental Assessment Form was transmitted to all involved agencies, together with notification of the Board’s desire to act as lead agency with respect to the environmental review of the proposed Project; and

WHEREAS, all involved agencies have consented to Board acting as lead agency with respect to the environmental review of the proposed Project; and

WHEREAS, 6 NYCRR Section 617.7 requires a lead agency to issue a written determination of significance with respect to any proposed Type I action; and

WHEREAS, the Board has carefully considered the nature and scope of the proposed Project, as set forth in the Full Environmental Assessment Form prepared with respect to such action, and makes the following determinations:

1. The proposed action involves various improvements to the District's campus and property located on Sacandaga Road (NYS Route 147) in the Town of Galway, County of Saratoga, including (i) athletic field and related improvements, including reconstruction of the existing track, replacement of the existing grass soccer field with artificial turf, the installation of field lighting at the soccer field, replacement of the existing soccer and softball field scoreboards, and paving of the existing track parking lot; (ii) four building additions, including a gym/fitness center addition, a high school office/vestibule addition, a technology addition, and a greenhouse addition; (iii) various site renovations and improvements, including the installation of two ramps/ADA access ways, the reconfiguration of a parking lot island to improve bus circulation, and the replacement/relocation of two underground fuel tanks; (iv) site improvements at the bus garage, including pavement replacement and the replacement of underground building fuel tanks with above ground tanks, (v) the construction of two new parking lots on property recently acquired by the District and located across Sacandaga Road, including associated access driveways, stormwater management improvements, and pedestrian access across Sacandaga Road, and (vi) various interior renovations and improvements. The proposed four building additions consist of approximately 15,879 square feet (gym/fitness center addition), approximately 1,000 square feet (high school office/vestibule addition), approximately 907 square feet (technology addition), and approximately 510 square feet (greenhouse addition). The two proposed new parking lots consist of approximately 35,000 square feet of new paved surface and approximately 10,500 square feet of new paved surface (south of Parkis Mills Road). The existing track parking lot which is proposed to be paved consists of approximately 23,000 square feet.

2. The proposed action is classified under SEQRA as a Type I action.

3. Upon consideration of the action, review of the Full Environmental Assessment Forms, the criteria contained in 6 NYCRR § 617.7(c), and all other supporting information, the Board identifies the following relevant areas of environmental concern, as set forth hereafter, and analyzes whether the proposed action may have a significant adverse impact on the environment.

4. The proposed project does not involve, and therefore will not result in, any substantial adverse change in existing air quality, ground or surface water quality or quantity, traffic or noise levels, or a substantial increase in solid waste production, or a substantial increase in potential for erosion, flooding, leaching, or drainage problems.

a. Air Quality The proposed improvements do not involve, and therefore will not result in, any substantial adverse changes to existing air quality. The proposed project does not include any improvements which will increase air emissions or odors beyond existing levels.

While work during the construction phase may result in short term impacts to air quality associated with dust and similar particulates, such impacts will be temporary in nature and will be minimized to the greatest extent practicable through standard industry mitigation measures.

b. Ground or Surface Water Quality or Quantity There are no surface waters or NYSDEC wetlands located in the areas to be disturbed on the subject properties in connection with the proposed improvements. While there may be a small disturbance to ACOE wetlands (depending on the final design of the proposed crosswalks), any disturbance is expected to be minimal in nature. As a result, no significant adverse impacts to ground or surface water quality or quantity are expected as a result of the proposed improvements. Much of the work proposed involves renovation or improvements to areas of the District's property which have been previously developed, thereby avoiding any potential impacts. While the creation of the two new parking lots will involve the development of previously undisturbed land, the limits of disturbance associated with the development of the new proposed parking lots will be at least 100 feet from any NYSDEC wetland areas, and appropriate sediment barriers will be installed and maintained, as may be necessary, to avoid any impacts to wetland areas.

c. Traffic The proposed project is not expected to result in any significant adverse changes to existing traffic levels. The District's facilities will continue to generally serve the same student, parent, staff, and visitor populations which currently generate traffic to and from the District's facilities, and as a result none of the proposed improvements are expected to generate any additional traffic significantly in excess of existing levels. The proposed project is expected to improve traffic safety by providing off-street parking for vehicles which currently park on NYS Route 147 during athletic events.

d. Noise The proposed project is not expected to result in any significant adverse impacts to existing noise levels. The project areas have long been developed and used as a public school campuses, including use associated with outdoor athletic events and practices, and the proposed project is consistent with that continued use. The proposed improvements will not result in the generation of any appreciable noise in excess of the existing, intermittent noise levels associated with the current use of the sites as outdoor athletic facilities.

e. Solid/Liquid Waste Production The proposed project is not expected to result in a substantial increase in solid or liquid waste production as compared to existing levels, insofar as the District's facilities will continue to generally serve the same student, parent, staff, and visitor populations as are currently served.

f. Erosion, Flooding, Leaching, or Drainage The proposed project is not expected to result in a substantial increase in the potential for erosion, flooding, leaching, or drainage problems, and will not result in any significant adverse environmental impacts associated with stormwater discharge or flooding. While the development of the two proposed new parking lots and the paving of the existing track parking lot will result in an increase in impervious surface areas as compared to existing conditions, any increase in stormwater runoff is expected to be modest and will be managed in accordance with a NYDEC Stormwater Pollution Discharge Elimination System (SPDES) permit and stormwater practices. None of the sites are within or adjacent to a floodplain or otherwise have a history of flooding.

5. The proposed project does not involve, and therefore will not result in, the removal or destruction of large quantities of vegetation or fauna, a substantial interference with the movement of any resident or migratory fish or wildlife species, impacts on any significant habitat area, substantial adverse impacts on a threatened or endangered species of animal or plant, or the habitat thereof, or other significant adverse impacts to nature resources. Much of the work proposed involves renovation or improvements to areas of the District's property which have been previously developed, and therefore does not involve the removal of substantial amounts of existing vegetation. While the development of the two proposed new parking lots involves the disturbance of previously undeveloped land, the areas to be disturbed are modest in size and are not known to be a significant habitat of any threatened or endangered species of animal or plant.

6. The project is not located within a designated Critical Environmental Area.

7. The proposed project will not create a material conflict with the community's current plans or goals as officially approved or adopted.

8. The proposed project is not expected to result in the impairment of the character or quality of any important historical or archeological, or aesthetic resources, or of existing community or neighborhood character. As noted, much of the work proposed involves renovation or improvements to areas of the District's property which have been previously developed. The areas where the two proposed new parking lots are to be developed is not known to contain any important historical or archeological resources. The project has been submitted for review by the State Office of Parks, Recreation and Historic Preservation, which has indicated that no properties, including archeological and/or historic resources, will be impacted by the project. The proposed project is not expected to result in any significant adverse impacts to aesthetic resources or to existing community or neighborhood character, insofar as the project areas have long been developed and used as a public school campus and the proposed project is consistent with that continued use. The proposed new field lighting at the soccer field will be designed and configured to focus light on the athletic field, and as a result it is anticipated that light spillage onto neighboring properties will be minimal and non-significant in nature.

9. The proposed project will not result in any major, adverse, change in the use of either the quantity or type of energy.

10. The proposed project will not result in the creation of a hazard to human health.

11. The proposed project does not involve, and therefore will not result in, a substantial change in the use, or intensity of use, of land including agricultural, open space, or recreational resources, or in its capacity to support such uses.

12. The proposed action will not result in the encouragement or attraction of a large number of people to the site as compared to the number of people that would come absent the action.

13. The proposed action will not result in a material demand for other actions, will not result in changes to two or more elements of the environment which together would result in a substantial adverse impact, and will not cumulatively result in a substantial adverse impact when considered with any related actions.

NOW, THEREFORE, BE IT RESOLVED, that upon consideration of the foregoing, the Board finds and concludes that the proposed action will not result in any significant adverse impacts to the environment; and it is further

RESOLVED, that the Board hereby issues a Negative Declaration with respect to the proposed action.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

7. Motion Michelle Bombard, Second David Page

BE IT RESOLVED BY THE BOARD OF EDUCATION OF THE GALWAY CENTRAL SCHOOL DISTRICT (the "School District") that a special meeting of the qualified voters of the School District be and the same is hereby called to be held in the High School Gym, 5317 Sacandaga Road, Galway, New York on **Tuesday, December 12, 2023 from 2:00 PM until 8:00 PM** prevailing time for the purpose of voting on the following propositions:

PROPOSITION #1:

Shall the Board of Education of the Galway Central School District be authorized to: (1) construct additions to, reconstruct and improve School District buildings, facilities and sites, acquire original furnishings, equipment, machinery or apparatus required for the purpose for which such buildings, facilities and sites are to be used and pay costs incidental thereto, at a maximum aggregate cost of \$34,734,934; (2) expend such sum for such purpose, including the expenditure of \$1,710,000 from the Capital Reserve Fund; (3) levy the necessary tax therefore, taking into account State aid and the amount to be expended from the Capital Reserve Fund, to be levied and collected in annual installments in such years and in such amounts as may be determined by the Board of Education; and (4) in anticipation of the collection of such tax, issue bonds and notes of the District at one time or from time to time in the principal amount not to exceed \$33,024,934, and levy a tax to pay the interest on said obligations when due?

PROPOSITION #2:

If proposition #1 is approved by the voters, shall the Board of Education of the Galway Central School District be authorized to: (1) reconstruct and improve School District buildings, facilities and sites, acquire original furnishings, equipment, machinery or apparatus required for the purpose for which such buildings, facilities and sites are to be used and pay costs incidental thereto, at a maximum aggregate cost of \$3,303,480; (2) expend such sum for such purpose; (3) levy the necessary tax therefore, taking into account State aid, to be levied and collected in annual installments in such years and in such amounts as may be determined by the Board of Education; and (4) in anticipation of the collection of such tax, issue bonds and notes of the District at one time or from time to time in the principal amount not to exceed \$3,303,480, and levy a tax to pay the interest on said obligations when due?

A public presentation on the Capital Project will be held on **Monday, October 16, 2023 at 6:30 PM** in the Galway Central School District Auditorium and on **Thursday, November 30, 2023 at 6:30 PM** in the Galway Central School District Auditorium.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

8. Motion Jeremy Sowle, Second Michelle Bombard

To accept a donation, with thanks and appreciation, of \$1,300 from the Galway Booster Club for expenses associated with Homecoming festivities.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

9. Motion Michelle Bombard, Second Jeremy Sowle

Approve an FFA field trip to the 2023 Eastern New York National FFA Convention in Indianapolis, IN from October 29, 2023 to November 4, 2023.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

10. Motion Michelle Bombard, Second Stacey Caruso-Sharpe

Approve an Equine Science field trip to the Big E in West Springfield, MA on November 9, 2023.

All voted aye to approve the Motion. Motion passed. Yes 6 No 0

BOARD MEMBER COMMENTS

- The Board thanked all of the presenters from this evening.
- Homecoming was amazing. Thank you to everyone who helped in the planning of Homecoming.
- Thank you to FFA for the flowers for Board Appreciation week.

PUBLIC COMMENT

- Neil Evans commented that the presentations this evening were fantastic and wished that more people from the community attended the board meetings to listen to the presentations. Echoes the comments on homecoming. Would like the Board to look into a new PA system.
- Janet Van Rijsewijk, on behalf of the CSEA, would like to thank the Board for all they do for them.

ADJOURNMENT

Meeting was adjourned at 8:40 p.m.

Respectfully submitted,
Linda M. Dumblewski
Linda M. Dumblewski
District Clerk

Galway Central School District

BOARD OF EDUCATION

Resolution to Authorize Disposal of District Property

WHEREAS, by General Municipal Law of New York State, a school district may properly dispose of certain district personal property, better known as capital assets, when such assets are no longer needed for school district purposes, and

WHEREAS, the Board of Education has adopted Policy # 6900 entitled "Disposal of District Property", and

WHEREAS, said policy directs that administrators and supervisors are to identify obsolete or surplus equipment and supplies that may be judged to be no longer needed for use by the school district, and

WHEREAS, said policy further requires that if such equipment and supplies have a re-sale value beyond a salvage value, that said items are to be sold for the highest possible price, and

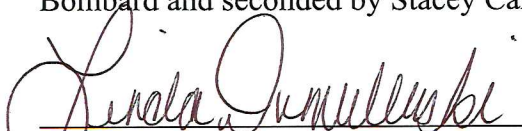

WHEREAS, if such equipment and supplies do not possess a re-sale value, then said items are to be properly disposed of and sold for salvage, if possible,

NOW, THEREFORE BE IT RESOLVED that the Board of Education of Galway Central School District does hereby authorize and direct the appropriate disposal of the following items that are deemed to be surplus:

PLEASE SEE ATTACHED

Yes 6 No 0 Abstain 0 Result MOTION PASSED

The above resolution adopted this 12th day of October, 2023 upon the motion of Michelle Bombard and seconded by Stacey Caruso-Sharpe.
